

The directors of CORUM Butler UCITS ICAV (the "Directors") listed in the Prospectus under "The ICAV" accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in the Prospectus and this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

CORUM BUTLER SHORT DURATION BOND UCITS FUND

A sub-fund of CORUM Butler UCITS ICAV, an umbrella fund with segregated liability between sub-funds authorised by the Central Bank of Ireland pursuant to the UCITS Regulations

SUPPLEMENT DATED 21 DECEMBER 2021

TO PROSPECTUS DATED 21 DECEMBER 2021

MANAGER: CORUM BUTLER ASSET MANAGEMENT LIMITED

This Supplement forms part of, and should be read in the context of, and together with the Prospectus dated 21 December 2021 and the Addendum to the Prospectus (as may be amended from time to time the "Prospectus"), in relation to CORUM Butler UCITS ICAV (the "ICAV") and contains information relating to the CORUM Butler Short Duration Bond UCITS Fund (the "Sub-Fund"), which is a separate sub-fund of the ICAV.

This Supplement should be read in conjunction with the general description of the ICAV contained in the Prospectus. All information contained in the Prospectus is deemed incorporated herein. Words and expressions not specifically defined in this Supplement bear the same meaning as that attributed to them in the Prospectus. To the extent that there is any inconsistency between this Supplement and the Prospectus, this Supplement shall prevail.

IMPORTANT INFORMATION

This Supplement shall form part of, and should be read in conjunction with, the Prospectus. Statements made in this Supplement are, except where otherwise stated, based on the law and practice currently in force in Ireland and are subject to change.

This Supplement contains information relating to the Sub-Fund, a separate sub-fund of the ICAV which is authorised and regulated by the Central Bank as a UCITS.

No person has been authorised to give any information or to make any representation in connection with the offering or placing of Shares other than those contained in this Supplement and the reports referred to below and, if given or made, such information or representation must not be relied upon as having been authorised by the ICAV. The delivery of this Supplement (whether or not accompanied by the reports), or any issue of Shares, shall not, under any circumstances, create any implication that the affairs of the ICAV have not changed since the date of this Supplement.

The distribution of this Supplement and the offering and placing of Shares in certain jurisdictions may be restricted and, accordingly, persons into whose possession this Supplement comes are required by the ICAV to inform themselves about and to observe such restrictions. This Supplement does not constitute an offer or solicitation to anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

Distribution of this Supplement is not authorised unless it is accompanied by a copy of the Prospectus, the KIIDs and the ICAV's or the Sub-Fund's latest annual report and audited accounts or half-yearly report and unaudited accounts (as applicable). These documents, delivered together, will comprise a complete current prospectus for the offering of Shares of the Sub-Fund.

Prospective investors should seek the advice of their legal, tax and financial advisers if they have any questions regarding the contents of this Supplement.

An investment in the Sub-Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The Sub-Fund will invest in financial derivative instruments ("FDI") (see "Leverage" below for details of the leverage effect of investing in FDI). This may expose the Sub-Fund to particular risks involving FDI. Please refer to "Derivative Instruments" in the section of the Prospectus entitled "Special Considerations and Risk Factors."

Investors should note that there is a difference between the nature of a deposit and the nature of an investment in the Sub-Fund. The return on the Shares may be less than that of other securities of comparable maturity or less than interest rates available in the market and the principal invested in the Sub-Fund is capable of fluctuation.

DEFINITIONS

Words and terms defined in the Prospectus have the same meaning in this Supplement unless otherwise stated herein. The ICAV is established pursuant to the UCITS Regulations and this Supplement shall be construed accordingly and will comply with the Central Bank Rules.

For the purposes of Share dealings and valuations of the Sub-Fund, "**Dealing Day**" shall mean every Business Day of every month or such other days as the Directors may determine and notify in advance to Shareholders provided always that there shall be at least two Dealing Days in each calendar month occurring at regular intervals.

The "**Valuation Point**" at which prices shall be used when valuing the assets of the Sub-Fund shall be 11:59pm (Irish time) on the Dealing Day or such other time on that Dealing Day as the Directors may determine from time to time and notify to Shareholders. For the avoidance of doubt, the Valuation Point for any Dealing Day shall always be after the relevant Subscription Dealing Deadline and Redemption Dealing Deadline (as defined below).

The Net Asset Value per Share in respect of any Dealing Day with respect to the Sub-Fund shall be published on www.bloomberg.com and on or through such other media as the Investment Manager may from time to time determine and notify to Shareholders. The Net Asset Value per Share published on the above mentioned website will be updated on each day on which the Sub-Fund publishes a Net Asset Value. The Net Asset Value per Share will also be available from the Administrator.

"**Accumulating Share Classes**" means all non-distributing share classes of the Sub-Fund.

"**Business Day**" means a day which is a bank business day in Dublin, Ireland and London, United Kingdom and in such other countries as the Directors shall from time to time determine and notify in advance to the Shareholders.

"**Class E Shares**" means the EUR Class E Accumulating Shares.

"**Corum Shares**" means the Corum Capitalisation Shares, Corum Life Capitalisation Shares and Corum Distribution Shares.

"**Distribution Date**" means the date or dates by reference to which a distribution may be declared which shall be the last Business Day of every month or such other day or days as the Directors shall from time to time determine and notify in advance to the Shareholders.

"**Distributing Share Classes**" Corum Distributing Shares, Corum Distribution Shares, EUR Institutional Class Distributing Shares, EUR Institutional Class Pooled Distributing Shares, EUR Institutional Class Founder Distributing Shares, Institutional Class Founder Pooled Distributing Shares and EUR Retail Class Pooled Distributing Shares.

"**EURIBOR**" means the Euro Interbank Offered Rate. EURIBOR is a daily reference rate, published by the European Money Markets Institute, based on the averaged interest rates at which Eurozone banks offer to lend unsecured funds to other banks in the euro wholesale money market (or interbank market).

"**Hurdle Rate**" means the return of the EURIBOR +1%.

"**Institutional Class Founder Shares**" means the EUR Institutional Class Founder Accumulating Shares, EUR Institutional Class Founder Distributing Shares, GBP Institutional Class Founder Accumulating Shares, CHF Institutional Class Founder Accumulating Shares and USD Institutional Class Founder Accumulating Shares.

"**Institutional Class Founder Pooled Shares**" means the EUR Institutional Class Founder Pooled Accumulating Shares, EUR Institutional Class Founder Pooled Distributing Shares, GBP Institutional Class Founder Pooled Accumulating Shares, CHF Institutional Class Founder Pooled Accumulating Shares and USD Institutional Class Founder Pooled Accumulating Shares.

"Institutional Class Pooled Shares" means the EUR Institutional Class Pooled Accumulating Shares, EUR Institutional Class Pooled Distributing Shares, GBP Institutional Class Pooled Accumulating Shares, CHF Institutional Class Pooled Accumulating Shares and USD Institutional Class Pooled Accumulating Shares.

"Institutional Class Shares" means the EUR Institutional Class Accumulating Shares, EUR Institutional Class Distributing Shares, GBP Institutional Class Accumulating Shares, CHF Institutional Class Accumulating Shares and USD Institutional Class Accumulating Shares.

"Retail Class Pooled Shares" means the EUR Retail Class Pooled Accumulating Shares, EUR Retail Class Pooled Distributing Shares, GBP Retail Class Pooled Accumulating Shares, CHF Retail Class Pooled Accumulating Shares and USD Retail Class Pooled Accumulating Shares.

The Base Currency of the Sub-Fund shall be Euro or such other currency as the Directors shall from time to time determine and notify to the Shareholders.

THE SUB-FUND

The Sub-Fund is a sub-fund of the ICAV, an Irish Collective Asset-management Vehicle with variable capital established as an umbrella fund with segregated liability between sub-funds.

The Sub-Fund issues twenty-nine (29) classes of Shares being the Institutional Class Founder Shares, Institutional Class Founder Pooled Shares, Institutional Class Pooled Shares, Institutional Class Shares, Retail Class Pooled Shares, Class E Shares and the Corum Shares. The ICAV may also create additional classes of Shares in the Sub-Fund in the future in accordance with the Central Bank Rules.

The Directors may determine to redeem all the outstanding Shares of the Sub-Fund as set out in the Prospectus.

THE INVESTMENT MANAGER

Butler Investment Managers Limited, the principal place of business which is at 3rd Floor, 50 Marshall Street, London, W1F 9BQ, United Kingdom, has been appointed as investment manager (the "**Investment Manager**") to manage and invest the assets of the Sub-Fund in accordance with the investment objective, policies and restrictions described in this Supplement. The Investment Manager is regulated and authorised by the Financial Conduct Authority (the "**FCA**") to provide regulated products and services (Firm Reference Number: 477024).

Under the Investment Management Agreement between the Manager and the Investment Manager dated 2 September 2019 (the "**Investment Management Agreement**"), the Investment Manager will provide or procure the provision of discretionary investment management services and distribution services to the ICAV in respect of the Sub-Fund.

The Investment Management Agreement provides that neither the Investment Manager nor any of its partners, officers, employees or agents shall be liable to the Manager or any of its directors, officers, employees or agents for any loss or damage suffered or incurred by them arising out of the performance by the Investment Manager of its duties under the Investment Management Agreement, unless such loss or damage arose out of or in connection with the negligence, wilful default, bad faith or fraud of or by the Investment Manager.

The Manager is obliged to indemnify and keep indemnified the Investment Manager and each of its partners, officers, employees or agents, out of the assets of the Sub-Fund, from and against all actions, proceedings, claims, liabilities, losses, damages, costs and expenses (including legal and professional fees and expenses arising therefrom) directly or indirectly suffered or incurred by the Investment Manager arising out of or in connection with the performance by the Investment Manager of its duties thereunder other than due to the negligence, wilful default, bad faith or fraud of or by the Investment Manager in the performance of its duties thereunder.

Either party may terminate the Investment Management Agreement upon ninety (90) days prior written notice to the other party. The Investment Management Agreement may be terminated by either party at any time by notice in writing in certain circumstances, including if the other party shall (i) commit any material breach of the Investment Management Agreement, which is either incapable of remedy or has not been remedied within thirty (30) days of notice requiring the remedying of the default; (ii) be the subject of any petition for the appointment of an examiner or similar officer to it; (iii) be unable to pay its debts as they fall due; (iv) have a receiver appointed; or (v) be the subject of an effective resolution for its winding up; (vi) be the subject of a court order for its winding up or liquidation; (vii) be incapable of performing its duties or obligations under the Investment Management Agreement.

INVESTMENT OBJECTIVE AND POLICIES

Investment Objective

The Sub-Fund's investment objective is to seek to achieve, net of management fees, an annualised outperformance of the 1-month EURIBOR "EUR 1M" +100 basis points (the "**Benchmark**") from investment in credit securities for investors with an investment horizon of 1-2 years.

Investors should note that there can be no guarantee that the Sub-Fund will achieve its investment objective.

Investment Policy

The Sub-Fund seeks to achieve the investment objective by taking positions primarily in short duration European credit securities and will aim to have an overall duration for the Sub-Fund of up to two years.

The Sub-Fund will gain direct and indirect exposure to credit securities (i.e. bonds, debentures and promissory notes) issued by corporate issuers and which are listed or traded on a Recognised Market. While the Sub-Fund will have a geographical focus on Europe, it will not be restricted to any industry or sector.

The credit securities to which the Sub-Fund will invest in may be fixed or floating rate, and have a rating of investment grade, or sub-investment grade, as rated by a Recognised Rating Agency or may be unrated. The Sub-Fund may invest up to 100% of its Net Asset Value in sub-investment grade credit securities.

The Sub-Fund may use total return swaps, options, futures and credit default swaps ("**CDS**"), as described under the heading "**Use of FDI**" below, and credit indices, such as the Markit iBoxx® EUR Liquid High Yield Index TRI as further described under the heading "**General Description of the Indices**" below. The Sub-Fund may also use forwards for currency hedging purposes. Any short exposure will be for hedging purposes only and obtained only through the use of FDI.

The Sub-Fund may also invest in open-ended exchange traded funds ("**ETFs**") and open-ended collective investment schemes ("**CIS**") listed or traded on a Recognised Exchange which provide exposure to securities that are consistent with the investment policy of the Sub-Fund within the general limit on investment in CIS i.e. no more than 10%, in aggregate, of the Net Asset Value of the Sub-Fund. The Sub-Fund may also invest in closed-ended CIS listed or traded on a Recognised Exchange, which are transferable securities for the purposes of the UCITS Regulations and which provide exposure to securities that are consistent with the investment policy of the Sub-Fund.

Under normal market conditions, it is expected that long positions held by the Sub-Fund will typically represent up to 150% of the Net Asset Value of the Sub-Fund at any one time and short positions held by the Sub-Fund will typically represent up to 25% of the Net Asset Value of the Sub-Fund at any one time.

The assets that may be held by the Sub-Fund in accordance with its investment objective and policies may be subject to Securities Financing Transactions. The proportion of the Sub-Fund's assets that will be subject to Securities Financing Transactions is normally expected to be approximately 25% of the Net Asset Value of the Sub-Fund but may be up to a maximum of 100% of the Net Asset Value of the Sub-Fund

Cash Management

The Sub-Fund may, pending re-investment or to support its FDI positions, in circumstances of extreme volatility or if market factors require and if considered appropriate to the investment objective of the Sub-Fund, invest up to 100% of the Sub-Fund's Net Asset Value in cash, cash equivalents (including, but not limited to, cash deposits, commercial paper and certificates of deposit), money market funds (limited to 10% in aggregate of the Net Asset Value of the Sub-Fund) and money market instruments (including but not limited to short term commercial paper, floating rate notes, medium term notes or debt securities

issued or guaranteed by any OECD government, its agencies or instrumentalities or by any supra-national entity with investment grade rating as rated by a Recognised Rating Agency).

The Benchmark

The Sub-Fund is actively managed in reference to the Benchmark as it aims to outperform the Benchmark and such performance is compared to the Benchmark in marketing materials. Investments for the portfolio are not specifically selected from constituents of the Benchmark, hence the Sub-Fund's investment policy is in no way constrained and the degree of deviation from the Benchmark may be significant. The Manager, in consultation with the Investment Manager, is satisfied that the Hurdle Rate is consistent with the Sub-Fund's investment policy. In addition, the Performance Fee is calculated based on the Hurdle Rate disclosed under the heading "Performance Fee" below.

EURIBOR is one of the main benchmark rates for the euro zone money market. It is the deposit account interest rate offered on the European market by top tier banks. EURIBOR is determined based on a sample of 57 banks (including 51 European banks). The rates are published daily by the EBF at 11 a.m. (GMT). The interest is calculated on an exact 360-day calculation basis. The rate applies two business days after it is set. The Investment Manager considers that Benchmark represents an adequate benchmark for the credit securities market to which it refers.

Investment Strategy

The Investment Manager will focus on investing in a diversified portfolio using a wide range of short duration credit securities with the ability to invest in fixed/floating rate instruments and indices.

The investment process is based on a combination of a bottom up analysis of corporate issuers' fundamentals and a top-down analysis of macroeconomic developments to manage the overall portfolio risk.

With regard to the bottom up analysis, the Investment Manager will principally focus on short duration securities (as described in the Investment Policy) by performing extensive financial and fundamental analysis, including meetings with corporate management of the issuers. In valuing a company's securities, the Investment Manager will consider the following factors: (1) the company's ability to generate return on investment; (2) the structure of the industry, the position of the company in its industry and the resulting profitability of the company; (3) the relative valuation of the company compared to its peers and to the general market; (4) the strength of the company's balance sheet; and (5) the quality and motivation of management identified through meetings with management.

The Investment Manager will also undertake a top down assessment and anticipation of macroeconomic developments (e.g., GDP and foreign currency) and their implications on the business cycle and economic sectors. In addition, the Investment Manager will focus on four (4) different themes in relation to the securities it will consider for investment, namely (1) the rating of the securities (i.e. rated investment grade or sub-investment grade by a Recognised Rating Agency); (2) the duration of the securities (i.e. short duration to maturity); (3) sector (i.e. cyclical industry or defensive industry); and (4) geographic location of the issuer (based in developed or non-developed countries). The Investment Manager will assess the attractiveness of each security against these themes and how they might affect the valuation of the security. For example, companies in cyclical industries are likely to perform better in the early stages of an economic cycle, while companies in defensive industries would normally be expected to hold their value more in the volatile markets associated with late stage economic cycles. Similarly, companies in developed markets would generally be less affected by global political instability and rising interest rates than companies in non-developed countries.

Based on the fundamental analysis of companies outlined above, and having considered the position of the companies within each of the four different themes identified above, the Investment Manager will identify the short and long term prospects of a company in order to assess its intrinsic value (i.e. the calculated value of a company without reference to the market) and its ability to outperform/underperform the market or its peers. The Investment Manager will form an opinion (based on the analysis of such companies) as to whether the investment opportunity is attractive and whether the securities of a company are overvalued or undervalued. The Investment Manager will seek to purchase securities deemed to be undervalued.

Use of FDI: General

The Sub-Fund shall enter into FDI with Approved Counterparties on an OTC basis, or may invest in FDI listed or traded on a Recognised Market. The use of FDI will be subject to the Sub-Fund's investment objective and policy and to the provisions set forth in Appendix III and Appendix IV to the Prospectus.

Assets of the Sub-Fund may be denominated in a currency other than the Base Currency and changes in the exchange rate between the Base Currency and the currency of the asset may lead to a depreciation of the value of the Sub-Fund's assets as expressed in the Base Currency. The Sub-Fund may (but is not obliged to) seek to mitigate this exchange rate risk by entering into currency transactions including forward foreign exchange contracts, currency swaps and currency options to hedge the foreign currency exposure of individual Share Classes against the Base Currency or the currencies in which the assets of the Sub-Fund are denominated in order to hedge the currency exposure of assets of the Sub-Fund into the Base Currency. No assurance, however, can be given that such mitigation will be successful.

Total Return Swaps:

A total return swap may be used to provide exposure to the investments outlined in the "**Investment Policy**" section in a more efficient manner than a direct investment. In a swap, the gross returns to be exchanged or "swapped" between the parties are calculated with respect to a "notional amount", i.e. the return or increase in value of the investments. Total return swap agreements may be used by the Sub-Fund to gain exposure to underlying assets or for hedging purposes, whereby the Sub-Fund agrees to pay a stream of payments based on an agreed interest rate in exchange for payments representing the total economic performance, over the life of the swap, the asset or assets underlying the swap.

The Sub-Fund may enter into total return swaps with any counterparty (as identified in the Sub-Fund's financial statements) meeting the UCITS eligible counterparty criteria as set out in the UCITS Regulations. For the avoidance of doubt, such counterparty shall not assume any discretion or approval control over the composition or management of the Sub-Fund's investment portfolio.

Options:

An option is an agreement between two parties where the option buyer has the right but not the obligation to buy (call option) or sell (put option) an instrument at a specified date and price. An option buyer pays a premium representing the value of the option and if, at the option expiry, it is economically advantageous to do so, may exercise a call option to buy the underlying instrument, or in the case of a put option, sell the underlying instrument. The option writer receives and keeps the option premium, and at the choice of the option buyer, has to buy or sell the underlying instrument at the time and price specified. The reference instrument for an option used by the Reference Portfolio may be any asset which the Sub-Fund may gain exposure to. Standard options are exchange traded and other options are traded OTC.

The Sub-Fund may use interest rate options for indirect investment in accordance with the investment policy or to hedge interest rate risk.

Futures:

Futures are contracts to buy or sell a standard quantity of a specific asset (or, in some cases, receive or pay cash based on the performance of an underlying asset or instrument) at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange.

Futures will be utilised by the Sub-Fund for indirect investment in accordance with the investment policy or to hedge interest rate risk. Since these contracts are marked-to-market daily, investors can, by closing out their position, exit from their obligation to buy or sell the underlying assets prior to the contract's delivery date. Using futures to achieve a particular strategy instead of using the underlying or related security frequently results in lower transaction costs being incurred.

Credit Default Swaps:

A CDS is a type of credit derivative which allows one party (the "**Protection Buyer**") to transfer credit risk of a reference entity (the "**Reference Entity**") to one or more other parties (the "**Protection Seller**"). The Protection Buyer pays a periodic fee to the Protection Seller in return for protection against the occurrence of a number of events experienced by the Reference Entity. CDS may be used by the Sub-Fund to purchase protection against the default of individual assets held by the Sub-Fund or against a security which the Sub-Fund does not hold but in anticipation of a decline in that issuer's credit position. Protection may also be sold under a CDS in anticipation of a stable or improving credit position.

The Sub-Fund may enter into CDS for indirect investment in accordance with the investment policy or to hedge credit risk.

Forwards:

A forward contract locks in the price at which an asset may be purchased or sold on a future date. In forward foreign exchange contracts, the contract holders are obligated to buy or sell from another a specified amount of one currency at a specified price (exchange rate) with another currency on a specified future date. Forward contracts cannot be transferred but they can be 'closed out' by entering into a reverse contract.

Forward foreign exchange contracts will be used by the Sub-Fund to hedge against the movements of the foreign exchange markets. Forward foreign exchange contracts are specifically useful for hedging in connection with hedged currency classes of Shares and may also be used for this purpose.

General Description of the Indices

As described under the heading "**Investment Policy**" above, the Sub-Fund will use indices to gain exposure to underlying assets or to hedge interest or credit risk and any such investment will be made indirectly through FDI.

The rebalancing frequency of the indices will not materially impact on the strategy of the Sub-Fund or on transaction costs associated with the Sub-Fund. Where the weighting of any particular component in an index exceeds the permitted UCITS investment restrictions after rebalancing, any indirect exposure to the Index will be disposed of by the Sub-Fund within a reasonable timeframe taking into account the interests of Shareholders to ensure that all regulatory requirements continue to be satisfied.

Markit iBoxx® EUR Liquid High Yield Index TRI

The Markit iBoxx® EUR Liquid High Yield Index TRI tracks the market for high yield corporate bonds. The Markit iBoxx® EUR Liquid High Yield Index TRI contains approximately 250 corporate bonds with sub-investment grade ratings. The rebalancing frequency of the Markit iBoxx® EUR Liquid High Yield Index TRI is semi-annually. For further details, please see the link below:

https://www.markit.com/Content/Documents/Products/Factsheets/iBoxx/MKT_iBoxx_EUR_Liquid_High_Yield_Indices_factsheet.pdf

Markit iTraxx® Crossover Index

The Markit iTraxx® Crossover Index comprises the 75 most liquid European sub-investment grade entities. The rebalancing frequency of the Markit iTraxx® Crossover Index is semi-annually. For further details, please see the link below:

<http://www.markit.com/Company/Files/DownloadFiles?CMSID=2d2b146de8594ff8841192059aebb3a1>

Leverage

In accordance with the Central Bank's requirements, the Sub-Fund may be leveraged through its investment in FDI by up to 100%, which will be measured using the commitment approach, whereby, in general, FDI exposures are calculated by adding together the values of the assets notionally underlying each FDI. The Sub-Fund may also take account of netting and hedging arrangements when calculating global exposure in accordance with the Central Bank's requirements. The exposure of the Sub-Fund to

FDI will be measured using the commitment approach and the maximum total exposure will be 200% (comprising 100% of the Net Asset Value of the Sub-Fund and 100% exposure through its investment in FDI). The Investment Manager does not intend that the Sub-Fund will principally invest in FDI, although it will invest in FDI for hedging purposes and as an alternative to direct investment where it is beneficial for the Sub-Fund to do so. It is intended that any such investment in FDI would replicate the market exposure and volatility expected from investing directly in the underlying instrument.

Risk Management

The Manager is required under the UCITS Regulations to employ a risk management process which will enable it to accurately monitor, manage and measure the risks attached to FDI that it uses. The commitment approach method used by the Manager is one of the two methods explicitly permitted under the UCITS Regulations for this purpose, and details of this process have been provided to the Central Bank in the risk management process statement the Manager filed with the Central Bank. The Manager will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

The Sub-Fund will not utilise any FDI that are not included in its existing risk management process, and it will not use such FDI until such time as the risk management process has been prepared and submitted to the Central Bank in accordance with the Central Bank requirements.

Investment Restrictions

In accordance with the UCITS Regulations, the Sub-Fund has been granted a derogation by the Central Bank from Regulations 70, 72 and 73 of the UCITS Regulations for a period of six (6) months following the date of approval of the Sub-Fund pursuant to the UCITS Regulations provided that the Sub-Fund still observes the principle of risk spreading and during this period the investment policy above will be applied in accordance with this derogation.

The general investment restrictions contained in the Investment Restrictions section of the Prospectus also apply.

Investors should note that there can be no guarantee that the Sub-Fund will achieve its investment objective.

Profile of a Typical Investor

The Investment Manager expects that a typical investor will be seeking to achieve a return on their investment in the short to medium term with a low level of volatility and the risks associated with an investment of this type.

HOW TO BUY SHARES

The Initial Offer Period for the Corum Shares, CHF Institutional Class Pooled Accumulating Share Class has closed. Shares in all remaining Share Classes will be offered at the initial price per Share ("**Initial Price**") set out in the table below in the Fees and Expenses section from 9:00 a.m., 27 December 2019 (the "**Initial Offer Period**") until 26 June 2020 or such other date as the Directors may determine and notify to the Central Bank, subject to receipt by the ICAV of applications and subscription proceeds in the manner described below. Shares of all Classes of the Sub-Fund for which the Initial Offer Period has closed will be available for subscription on each Dealing Day at the prevailing Net Asset Value per Share.

The denomination of each Share Class is set out in the "**Fees and Expenses Table**" below.

The minimum subscription amount for each Share Class is as set out in the Fees and Expenses Table below. The Directors may waive the minimum initial subscription amount at their discretion.

Shares of all Classes of the Sub-Fund which are not yet funded and which have not yet been issued are available for subscription at the Initial Price (as set out in the Fees and Expenses table below). Shares of all Classes of the Sub-Fund which are funded and which are in issue are available for subscription at the relevant Net Asset Value per Share on each Dealing Day. Details of the Shares of all Classes of the Sub-Fund which are in issue are available on www.corumbutler-am.com. The minimum subscription amount for each Share Class is as set out in the Fees and Expenses Section below. The Directors may waive the minimum initial subscription amount at their discretion.

Orders for Shares of all Classes of the Sub-Fund that are received and accepted by or on behalf of the Administrator or the ICAV at the address specified in the Application Form prior to 1.00 p.m. (Irish time) (the "**Subscription Dealing Deadline**") on the Business Day preceding the relevant Dealing Day, will be processed at the Net Asset Value in respect of that Dealing Day. In exceptional circumstances, the Directors, in their absolute discretion, may accept orders after the relevant Subscription Dealing Deadline provided that any such order will be received prior to the close of business of the market that closes first in the market relevant to the assets. Shares will be provisionally allotted subject to receipt of the cleared subscription monies, provided that cleared funds are received and accepted by or on behalf of the Administrator or the ICAV before 11.59 p.m. (Irish time) two (2) Business Days following the relevant Dealing Day (the "**Funding Deadline**"). Orders to subscribe for Shares received and accepted by or on behalf of the Administrator or the ICAV after the Subscription Dealing Deadline for the Sub-Fund will be processed at the Net Asset Value in respect of the next Dealing Day. It is the responsibility of the Distributor and intermediaries as appointed in accordance with the requirements of the Central Bank to ensure that orders placed through them are transmitted onwards to the Administrator on a timely basis.

Where subscription monies are not received by the ICAV before the Funding Deadline, the ICAV may temporarily borrow an amount equal to the subscription monies and invest such monies in accordance with the investment objective and policies of the Sub-Fund, subject to the receipt of the cleared subscription monies no later than ten (10) Business Days after the Funding Deadline. Any such borrowings will be in accordance with the requirements of the Central Bank and will not, in any event, exceed 10% of the Net Asset Value of the Sub-Fund. Once the subscription monies are received the Sub-Fund will use such subscription monies to repay the relevant borrowings and reserves the right to charge that investor interest on such outstanding subscription monies at normal commercial rates. In addition the investor shall indemnify the ICAV for any losses, costs or expenses suffered directly or indirectly by the ICAV or the Sub-Fund as a result of the investor's failure to pay for Shares applied for by the due date set forth in the Prospectus and this Supplement. The ICAV also reserves the right to cancel the provisional allotment of the relevant Shares in those circumstances. In computing any losses covered under this paragraph, account shall be taken, where appropriate, of any movement in the price of the Shares concerned between the transaction date and cancellation of the transaction or redemption of the Shares, and of the costs incurred by the ICAV or the Sub-Fund in taking proceedings against the applicant.

For additional information concerning subscriptions, please consult "**Investing in Shares**" in the Prospectus.

HOW TO REDEEM SHARES

Shareholders may redeem their Shares by mail or fax. Shareholders may request the ICAV to redeem their Shares on and with effect from any Dealing Day at a price based on the relevant Net Asset Value per Share in respect of such Dealing Day. Any amendments to a Shareholder's registration details or payment instructions will only be effected on receipt of original documentation.

Save where expressly provided herein or in the Prospectus, a redemption request forwarded by mail or fax must be received by the ICAV, c/o the Administrator, at the address specified in an Application Form not later than 1.00 p.m. (Irish time) one (1) Business Day prior to the relevant Dealing Day (the "**Redemption Dealing Deadline**"). Faxes should be sent to +353 1 7900451. Redemption proceeds will normally be paid within two (2) Business Days of the relevant Dealing Day and no later than ten (10) Business Days of the relevant Redemption Dealing Deadline. However, no redemption payments will be made until the complete subscription documentation in original form where required by the ICAV has been received by the Administrator (including any documents in connection with anti-money laundering procedures) and the anti-money laundering procedures have been completed. Requests received after the Redemption Dealing Deadline on a Dealing Day shall be processed as at the next Dealing Day unless previously withdrawn. All requests for redemption must be endorsed by the record owner(s) exactly as the Shares are registered. In addition, in some cases the Administrator may require the furnishing of additional documents such as where the Shares are registered in the name of a corporation, partnership or fiduciary.

For additional information concerning redemptions and restrictions thereon, please consult "Investing in Shares" in the Prospectus.

HOW TO EXCHANGE OR TRANSFER SHARES

Shareholders may exchange Shares in the Sub-Fund on any Dealing Day for Shares of another Class in the Sub-Fund or Shares in any Class of any other sub-fund authorised by the Central Bank. An exchange request will be treated as an order to redeem the shares held prior to the exchange and a purchase order for new Shares or shares of another sub-fund (together, "**New Shares**") with the redemption proceeds. The original Shares will be redeemed at their Net Asset Value per share and the New Shares will be issued at the Net Asset Value per Share of the corresponding class of the applicable sub-fund. Exchange requests for Shares must be made through the Distributor for onward transmission to the Administrator in accordance with such detailed instructions regarding exchange procedures as are furnished by the Administrator. The exchange of Shares in New Shares will be subject to the Shareholder meeting the eligibility requirements applicable to the New Shares, including without limitation minimum subscription and minimum shareholding requirements, if any.

No exchange fee will be charged by the ICAV or the Manager.

Transfers of Shares must be affected by submission of an original Stock Transfer Form or other form of transfer acceptable to the ICAV. Every form of transfer must state the full name and address of each of the transferor and the transferee and must be signed by or on behalf of the transferor. The Directors (or the Administrator on their behalf) may decline to register any transfer of Shares unless the transfer form is deposited at the registered office of the ICAV, or such other place as the Directors may reasonably require, accompanied by such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer. The transferor shall be deemed to remain the holder of the Shares until the name of the transferee is entered in the register of Shareholders. A transfer of Shares will not be registered unless the transferee, if not an existing Shareholder, has completed an Application Form to the satisfaction of the Directors.

For additional information concerning exchanges and restrictions thereon, please consult "Investing in Shares" in the Prospectus.

Shares are freely transferable and may not be subject to any transfer restrictions or compulsory redemption save where the holding of such Shares may result in regulatory, pecuniary, legal, taxation or material administrative disadvantage for the ICAV or its Shareholders as a whole, or where such

transfer would result in a Shareholder falling below the specified minimum holding, if applicable. To avoid such regulatory, pecuniary, legal, taxation or material administrative disadvantage for the ICAV or its Shareholders as a whole, transfers of Shares may be refused at the discretion of the Directors or the Administrator on their behalf. A proposed transferee may be required to provide such representations, warranties or documentation as the Directors may require in relation to the above matters. In the event that the ICAV does not receive a Declaration (as described in the section of the Prospectus entitled "Taxation") in respect of a transferee, the ICAV will be required to deduct appropriate tax in respect of any payment to the transferee or any sale, transfer, cancellation, redemption, repurchase or other payment in respect of the Shares as described in the section headed "Taxation" in the Prospectus.

DIVIDEND POLICY

Distributing Share Classes

For the Distributing Share Classes, the Directors intend to declare dividends out of the underlying income to the Distributing Share Classes as of the Distribution Date. Such dividends will be paid on or before the 14th Business Day following the Distribution Date to Shareholders of the Distributing Share Classes (i) entered on the register of Shareholders at the close of business on the Business Day immediately preceding the Distribution Date and (ii) meeting any criteria for eligibility of a dividend payment imposed by the Directors when declaring a dividend on the Distribution Date. Therefore applicants for Shares issued on or after the Distribution Date will not be entitled to the distribution paid in respect of such Distribution Date but Shareholders seeking the redemption of Shares in issue before the Distribution Date will receive the distribution paid in respect of such Distribution Date, if not paid before the redemption.

The Directors reserve the right to increase or decrease the frequency of dividend payments, if any, at their discretion. In the event of a change of policy full details will be disclosed in an updated Supplement and Shareholders will be notified in advance.

Shareholders should note that they will not be entitled to receive a dividend payment out of the assets of the Distributing Share Classes until the Distribution Date following the expiration of the third calendar month (which shall include the calendar month in which the investment was made) since the date of their investment in the Distributing Share Classes.

Dividends will be paid to Shareholders by electronic transfer to the relevant Shareholder's bank account of record on the initial Application Form denominated in the Base Currency at the expense of the payee and within the timeframe outlined above. Any dividends paid which are not claimed or collected within six years of payment shall revert to and form part of the assets of the Sub-Fund. The net income available for distribution in respect of the Distributing Share Classes will be determined in accordance with the relevant law and generally accepted accounting principles consistently applied.

Accumulating Share Classes

It is not currently the intention of the Directors to distribute dividends to the Shareholders of the Accumulating Share Classes. The income and gains of the Accumulating Share Classes in the Sub-Fund will be accumulated and reinvested on behalf of Shareholders in these classes.

If dividends are to become payable in the Accumulating Share Classes, Shareholders will be notified in advance and full details will be provided in an updated Supplement for the Sub-Fund.

SPECIAL CONSIDERATIONS AND RISK FACTORS

Investors should be aware of the risks of the Sub-Fund including, but not limited to, the risks described in the "**SPECIAL CONSIDERATIONS AND RISK FACTORS**" section of the Prospectus and below. Investment in the Sub-Fund is suitable only for persons who are in a position to take such a risk.

Risk Factors Not Exhaustive

The investment risks set out in the Prospectus do not purport to be exhaustive and potential investors should be aware that an investment in the ICAV or any Sub-Fund may be exposed to risks of an exceptional nature from time to time.

FEES AND EXPENSES

This section should be read in conjunction with the section entitled "**Fees and Expenses**" in the Prospectus. The table below summarises the fees that are currently imposed in respect of each Share Class. Further details in relation to each of these fees are set out below.

Share Classes	EUR Institutional Class Accumulating	EUR Institutional Class Distributing	GBP Institutional Class Accumulating*	CHF Institutional Class Accumulating	USD Institutional Class Accumulating

*The Sub-Fund will hedge the foreign currency exposure of non-Base Currency Share Classes either against the Base Currency or the currencies in which the assets of the Sub-Fund are denominated.

Each of the percentages set out above is a percentage of the Net Asset Value of the Sub-Fund unless stated otherwise.

MANAGER FEES

Investment Management Fee

The ICAV will be subject to an investment management fee in respect of the Sub-Fund in an amount which will not exceed:

- i. 0% per annum of the Net Asset Value of the Sub-Fund in the case of the Class E Shares;
- ii. 0.45% per annum of the Net Asset Value of the Sub-Fund in the case of the Institutional Class Founder Shares and the Institutional Class Founder Pooled Shares;
- iii. 0.70% per annum of the Net Asset Value of the Sub-Fund in the case of the Institutional Class Shares and the Institutional Class Pooled Shares; and
- iv. 0.95% per annum of the Net Asset Value of the Sub-Fund in the case of the Corum Shares and the Retail Class Pooled Shares.

The investment management fee will accrue daily and will be payable monthly in arrears on the last Dealing Day for that month payable in Euro.

The investment management fee will be paid by the ICAV to the Manager which will pay the fees of the Investment Manager out of these fees. The ICAV will also reimburse the Manager out of the assets of the Sub-Fund for reasonable out-of-pocket expenses incurred by the Manager and the Investment Manager.

The Manager may from time to time, and in its sole discretion and out of its own resources, decide to rebate to some or all Shareholders (or their agents) or to intermediaries, part or all of the investment management fees it receives in relation to the Sub-Fund. Any such rebates may be applied in paying up additional Shares to be issued to the Shareholder.

Performance Fee

The Manager will also be entitled to receive a performance fee in respect of each of the following Share Classes: the Institutional Class Shares; Institutional Class Founder Shares; Institutional Class Pooled Shares; Institutional Class Founder Pooled Shares, Retail Pooled Shares and the Corum Shares; calculated as set out at Sections A, and B below (the "**Performance Fee**"). The Manager may pay some or all of the Performance Fee to the Investment Manager. The calculation of the Performance Fee shall be verified by the Depositary as at each payment date (as defined below) and is not open to the possibility of manipulation.

The Performance Fee is accrued on a daily basis as at each Valuation Point and:

- a) from 1 October 2020 to 31 December 2021 is payable for a 15-month period; and
- b) from 1 January 2022 and each year thereafter, is payable for a 12-month period starting on 1 January and ending on 31 December.

(each period being a "**Calculation Period**").

The first Calculation Period is the period commencing on the Business Day immediately following the end of the Initial Offer Period and ending on the last Dealing Day in that calendar year. The Initial Price will be taken as the starting price of the first Calculation Period. The Performance Fee will be calculated and deemed to accrue as at each Valuation Point.

The Performance Fee is normally payable to the Manager in arrears within 14 calendar days of the end of each Calculation Period. However, in the case of Shares redeemed during a Calculation Period, the accrued Performance Fee in respect of those Shares will be payable within 14 calendar days after the date of redemption (the "**Payment Date**").

If the Management Agreement is terminated before the end of any Calculation Period, the Performance Fee in respect of the then current Calculation Period will be calculated and paid as though the date of termination were the end of the relevant period.

A. Institutional Class Shares, Institutional Class Founder Shares and Corum Shares

The Performance Fee for the Institutional Class Shares, Institutional Class Founder Shares and Corum Shares (together the “**Equalisation Class Shares**”) is calculated on a Share-by-Share basis so that each such Share is charged a Performance Fee which equates precisely with that Share’s performance. This method of calculation ensures that (i) any Performance Fee paid to the Manager is charged only to those Shares which have exceeded the Hurdle Rate, (ii) all holders of Shares of the same Class have the same amount of capital per Share at risk in the Sub-Fund, and (iii) all Shares of the same Class have the same Net Asset Value per Share.

For each Calculation Period, the Performance Fee will be calculated at the relevant percentage rate per annum shown in the table above for each of the relevant share classes (the “**Relevant Percentage**”) of the appreciation in the Net Asset Value per Share of each such Class during that Calculation Period above the Hurdle Rate.

Any underperformance of the Hurdle Rate in any Calculation Period will be recovered before any further Performance Fee becomes payable in the following Calculation Period. This will be done by establishing a minimum Net Asset Value per Share for the class, equating to the Net Asset Value per Share that would have been achieved had the Net Asset Value per Share performed at the same rate as the Hurdle Rate over the Calculation Period (“**Hurdle Net Asset Value**”). The Hurdle Net Asset Value will be used as the opening Net Asset Value per Share for the calculation of Performance Fee in the following Calculation Period and all future Calculation Periods until the underperformance has been recovered and a Performance Fee becomes payable again. For the avoidance of doubt, the Performance Fee is payable only on the amount by which the Sub-Fund outperforms the Hurdle Rate and any underperformance of the Hurdle Rate in preceding periods is clawed back (cleared) before a Performance Fee becomes due in subsequent periods.

Adjustments

If Equalisation Class Shares are subscribed for at a time when the Net Asset Value per Share of the Equalisation Class Shares is other than the Hurdle Net Asset Value per Share of that Class, certain adjustments will be made to reduce inequities that could otherwise result to the subscriber.

1. If Equalisation Class Shares are subscribed for at a time when the Net Asset Value per Share is less than the Hurdle Net Asset Value, the investor will be required to pay a Performance Fee with respect to any subsequent performance of those Shares in excess of the Hurdle Rate during the period between the issue of the Shares and the point at which the Net Asset Value per Share of the Class attains the Hurdle Net Asset Value. The Performance Fee will be charged at the end of each Calculation Period by redeeming at the prevailing Net Asset Value per Share of the Class such number of the investor’s Shares as have an aggregate Net Asset Value (after accrual for any Performance Fee) equal to the Relevant Percentage of the outperformance of the relevant Shares up to the Hurdle Net Asset Value (a “**Performance Fee Redemption**”). An amount equal to the aggregate Net Asset Value of the Shares so redeemed will be paid to the Manager as a Performance Fee. The Sub-Fund will not be required to pay to the investor the redemption proceeds of the relevant Shares. Performance Fee Redemptions are employed to ensure that the Sub-Fund maintains a uniform Net Asset Value per Share of each Class. As regards any remaining performance of the Shares above the Hurdle Net Asset Value, and any other Equalisation Class Shares held by the investor, a Performance Fee will be charged in the normal manner described above.
2. If Equalisation Class Shares are subscribed for at a time when the Net Asset Value per Share is greater than the Hurdle Net Asset Value, the investor will be required to pay an amount in excess of the then current Net Asset Value per Share of that Class equal to the Relevant Percentage of the difference between the then current Net Asset Value per Share of the relevant Class (before accrual for the Performance Fee) and the Hurdle Net Asset Value (an “**Equalisation Credit**”). At the date of subscription the Equalisation Credit will equal the Performance Fee per Share accrued with respect to the Equalisation Class Shares. The

Equalisation Credit is payable to account for the fact that the Net Asset Value per Share of the Equalisation Class Shares has been reduced to reflect an accrued Performance Fee to be borne by existing Shareholders of the Equalisation Class Shares and serves as a credit against Performance Fees that might otherwise be payable by the Sub-Fund but that should not, in equity, be charged against the Shareholder making the subscription because, as to such Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all holders of Equalisation Class Shares have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Sub-Fund and will therefore appreciate or depreciate based on the performance of the Equalisation Class Shares subsequent to the issue of the relevant Shares.

At the end of each Calculation Period, if the Net Asset Value per Share (before accrual for the Performance Fee) exceeds the Hurdle Net Asset Value, that portion of the Equalisation Credit equal to the Relevant Percentage of the excess, multiplied by the number of Shares of that Class subscribed for by the Shareholder, will be applied to subscribe for additional Shares of the Equalisation Class Shares for the Shareholder. Additional Shares of the Equalisation Class Shares will continue to be so subscribed for at the end of each Calculation Period until the Equalisation Credit, as it may have appreciated or depreciated in the Sub-Fund after the original subscription for Shares of that Class was made, has been fully applied. If the Shareholder redeems his Equalisation Class Shares before the Equalisation Credit (as adjusted for depreciation and appreciation as described above) has been fully applied, the Shareholder will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Equalisation Class Shares being redeemed and the denominator of which is the number of Shares of that Class held by the Shareholder immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.

B. Institutional Class Pooled Shares, Institutional Class Founder Pooled Shares and Retail Class Pooled Shares

The Manager is also entitled to receive a Performance Fee out of the assets attributable to the Institutional Class Pooled Shares, Institutional Class Founder Pooled Shares and Retail Class Pooled Shares (together the “**Pooled Class Shares**”). The Performance Fee will accrue on each Dealing Day as at each Valuation Point and the accrual will be reflected in the Net Asset Value per Share of the relevant share classes.

If at the end of the relevant Calculation Period, the performance of the Net Asset Value exceeds the Hurdle Net Asset Value, a Performance Fee will be calculated at the Relevant Percentage as laid out in the table above and shall be chargeable on the amount which exceeds the Hurdle Net Asset Value, plus any Performance Fee accrued in relation to the class in respect of redemptions during the Calculation Period.

The use of a Hurdle Net Asset Value ensures that investors will not be charged a Performance Fee until any previous shortfalls relative to the Hurdle Net Asset Value are recovered. The Hurdle Net Asset Value of a class is the Net Asset Value of the class as at the end of the last Calculation Period after which a Performance Fee was paid increased on each Dealing Day by the value of any subscriptions or reduced pro rata by the value of any redemptions on each Dealing Day and adjusted by the Hurdle Rate over the course of the Calculation Period. For the first Calculation Period in which Class Shares are first issued, the end of the relevant Initial Offer Period is considered the beginning of the first Calculation Period and the proceeds of the initial offer is considered the Hurdle Net Asset Value at the beginning of the first Calculation Period.

For the avoidance of doubt, the Performance Fee will be payable on the relative return of the Pooled Class Shares against the Hurdle Rate. Furthermore, the Performance Fee is payable on the outperformance of the Hurdle Rate and not the Net Asset Value per Share. The Performance Fee shall also be payable in the event of negative performance by the Sub-Fund, provided that the Sub-Fund has outperformed the Hurdle Rate over the Calculation Period.

For the purposes of the Performance Fee calculation, the Net Asset Value shall be calculated before the deduction of any accrual for Performance Fee for that Calculation Period, other than Performance Fee accrued in relation to the class in respect of redemptions during the Calculation Period but not yet

paid, provided that in doing so it is in the Shareholder's best interests (i.e. it would result in the investor paying less fees).

For the avoidance of doubt, any losses in a Calculation Period must be recouped in future Calculation Periods before any Performance Fee will become payable.

Where Performance Fees are payable by the Sub-Fund, these will be based on net realised and net unrealised gains and losses as at each Payment Date. As a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised. In addition, the Performance Fee may adversely impact the potential returns for Shareholders, particularly in circumstances where the Sub-Fund does not reach a certain size or achieve a certain target return.

The Manager may rebate to Shareholders or to intermediaries, part or all of the Performance Fee. Any such rebates may be applied in paying up additional Shares to be issued to the Shareholder.

Examples of how the Performance Fee is calculated are set out in Appendix I to this Supplement. Past performance against the Hurdle Rate is available on www.corumbutler-am.com.

EU Benchmark Regulation

The Sub-Fund is a user of a benchmark as defined by Regulation (EU) 2016/1011 (the "**Benchmark Regulation**"). The ICAV, acting in accordance with the Benchmark Regulation and applicable laws, has adopted a benchmark contingency plan which shall apply in the case that the Benchmark materially changes or ceases to be available. The administrator of the Benchmark complies with the requirements of the Benchmark Regulation.

SUBSCRIPTION FEE

The ICAV may charge a subscription fee of up to 5% of the gross subscription proceeds in respect of the Corum Shares and the Retail Class Pooled Shares. The ICAV may waive all or a portion of the subscription fee and may pay all or a portion of any subscription fee charge to a distributor and/or to any intermediaries, for services provided in connection with the solicitation of subscriptions. Any applicable subscription fee will be deducted from the subscribers' subscription payment for the purpose of determining the net amount available for investment in Shares.

REDEMPTION FEE

The ICAV does not currently intend to impose a redemption fee.

ESTABLISHMENT AND OPERATING EXPENSES

The Sub-Fund's formation expenses were approximately €47,000, are being borne out of the assets of the Sub-Fund and are being amortised over the first three (3) years of the Sub-Fund. Certain other costs and expenses incurred in the operation of the Sub-Fund will also be borne out of the assets of the Sub-Fund, including without limitation, research fees, registration fees and other expenses relating to regulatory, supervisory or fiscal authorities in various jurisdictions, client service fees; writing, typesetting and printing the Prospectus, sales literature and other documents for investors; taxes and commissions; issuing, purchasing, repurchasing and redeeming Shares; transfer agents, dividend dispersing agents, registrars; printing, mailing, auditing, accounting and legal expenses; reports to Shareholders and governmental agencies; meetings of Shareholders and proxy solicitations therefor (if any); insurance premiums; association and membership dues; and such non-recurring and extraordinary items as may arise.

OTHER FEES

Investors should refer to the "**Fees and Expenses**" section of the Prospectus for Management Fees, Depositary fees, Administration fees, Directors' fees and any other fees that may be payable and which are not specifically mentioned here.

APPENDIX I

Performance Fee ("PF") – Concrete Example

- A. Institutional Class Shares (10% PF), Institutional Class Founder Shares (5% PF) and Corum Shares (15% PF), together called the **Equalisation Class Shares**
- B. Institutional Class Pooled Shares (10% PF), Institutional Class Founder Pooled Shares (5% PF) and Retail Class Pooled Shares (10% PF), together called the **Pooled Class Shares**

Note: When calculating the Performance Fee, the Hurdle Net Asset Value / High Water Mark ("**HWM**") is also adjusted for subscriptions and redemptions. This adjustment of subscriptions and redemptions exists for all class level fee examples however for Equalisation Class Shares, each individual investment lot is treated individually, as further described below.

If an investor subscribes when the Equalisation Share Class is in performance there is an equalisation credit associated with the subscription. If that Equalisation Share Class remains in performance, at the end of the Calculation Period, the investor will be issued Shares to the period end value of the equalisation credit. Conversely, if an investor subscribes when the Equalisation Share Class is below the class level HWM and experiences a gain, until the Fund level HWM is beaten, no Performance Fee accrues on the Net Asset Value in lieu of a gain however if in performance at the end of the Calculation Period, a Performance Fee is payable by way of a compulsory redemption of Shares.

Positive Performance

Positive Performance (PF 5%)	Per Share Values
Launch NAV	100
Starting HWM	100
Hurdle Rate (EURIBOR + 1%)	3%
Adjusted HWM	103
GAV	110
Positive Gain	7
Performance fee payable*	0.35
Ending NAV	109.65
HWM upon crystallisation**	109.65

*Performance Fee payable to the Investment Manager within 14 days of the end of the Calculation Period.

**Performance Fees are crystallised annually.

Negative Performance – Scenario 1

Negative Performance (PF 5%)	Per Share Values
Launch NAV	100
Starting HWM	100
Hurdle Rate (EURIBOR + 1%)	3%
Adjusted HWM	103
GAV	95
Negative Performance	-8
Performance fee payable*	0
Ending NAV	95
HWM upon crystallisation	100

*The Fund has not generated a positive return so no Performance Fee will be paid

Negative Performance – Scenario 2

Positive Performance BUT negative with respect to the adjusted HWM (PF 5%)	Per Share Values
Launch NAV	100
Starting HWM	100
Hurdle Rate (EURIBOR + 1%)	3%
Adjusted HWM	103
GAV	102
Positive gain (but negative with respect to adjusted HWM)	-1
Performance fee payable*	0
Ending NAV	102
HWM upon crystallisation	102

*The Fund has made a gain however no Performance Fee applies as the Fund has not outperformed the hurdle/is below the adjusted HWM
